

THE PROBLEM

Women and non-binary individuals are woefully underrepresented as speakers at professional technology events as shown by recent research in Washington, DC and Austin.

This lack of representation can have far-reaching effects.

-> Marginalized groups miss out on opportunities to be presented as leaders or experts in their fields.

-> They are less likely to feel welcome to such groups, missing out on valuable learning and networking opportunities.

We want everyone to know that we speak too.

THE SOLUTION

Select a city below to view **list of women and non-binary individuals** ready and willing to speak at your next tech event, and see the data on speakers in your area.

WASHINGTON, D.C.

AUSTIN, TEXAS
